CROMTECH OUTBACK PLATINUM INVERTER GENERATOR 2.4KW

The Cromtech Outback Platinum Inverter Generator 2.4kW is the perfect power source for your 'home away from home' while you are on the road camping, in the 4x4 or caravanning.

With its pure sine wave technology, you can safely and confidently power items such as laptops, mobile phones, televisions and most household appliances.

Also known as a leisure generator, a defining feature of this generator is it's lightweight and compact design that is also easy to maintain with quick convenient access ports.

Other great features are the eco switch allows you to minimise fuel consumption and allows for longer extended running. It is also super quiet, running at 52 to 59 decibels.
